📍 Novi Sad, Serbia. Serbian Work Permit

Professional Summary

- Frontend Developer with ~2.5 years experience in fast-paced media and product environments; building product UIs with React/Next.js through production-grade projects.
- Core Stack (projects): TypeScript, React, Next.js, Tailwind CSS.
- Proven ability to build, test, and deploy full-stack applications, including an e-commerce platform with Stripe payments and a responsive admin dashboard.
- Strong focus on code quality, accessibility foundations and robust testing (Vitest, Playwright, RTL).

Professional Experience

Frontend Developer (CMS & Design Systems)

Tinkoff Journal
Aug 2024 — Present

- Owned end-to-end publishing in the in-house CMS, shipping ~140 articles/month across formats with consistent QA and on-time releases.
- Reduced longread production time up to 50% by standardizing reusable layout patterns and resolving typography edge cases that bypassed the auto-formatter.
- Built automation and tooling with measurable impact: co-created a Figma script saving ~3 min per screenshot (up to 15–20 per article) and co-developed new CMS snippets to reduce manual markup.

Markup Developer

Tinkoff Journal
Aug 2023 — Aug 2024

- Engineered a set of reusable, regression-tested components within the in-house CMS, which allowed the team to ship layouts 20% faster while eliminating a class of common production bugs.
- Overhauled the content pipeline from Google Docs to CMS by introducing a structured data format, cutting down rework from last-minute editorial changes by over 50%.
- Created the team's onboarding guide and pre-release checklist for the CMS, reducing ramp-up time for 2 new developers and minimizing deployment blockers.

Certificates & Professional Development

Advanced TypeScript Hexlet.io (Nov 2024 — Feb 2025)

Web Developer ~ 270h Yandex Practicum (Jan 2023 — Nov 2023)

Responsive Web Design freeCodeCamp (Jul 2022 — Nov 2022)

Projects

Stripe Mini App (Next.js, TypeScript, Stripe, Zustand, Vitest/RTL, Playwright)

E-commerce demo: catalog → cart → promo codes → Stripe Checkout → success/cancel. Webhook verification, responsive UI + dark mode, SEO basics, unit/UI + E2E tests.

Admin Dashboard MVP (Next.js (App Router), TypeScript, Tailwind, TanStack Table, RHF+Zod, SWR, Chart.js)

Admin template with dashboard widgets and users table (sorting/pagination/bulk actions), auth via mock API, i18n (EN/ES/FR/RU). Testing (Jest/RTL + MSW) + CI/Codecov.

Skills

JavaScript | TypeScript | React | Next.js | HTML5 | CSS3 | Tailwind CSS | Zustand | SWR | Node.js (for toolchains) | Git | GitHub Actions (CI/CD) | Vercel | Vitest | Jest | Playwright | React Testing Library | MSW
